

## Most Unusual Teacher!

My most speldicious teacher was Mr. Robert Jones. He was my 5<sup>th</sup> grade teacher. He was a real character. He was very kind, warm, thoughtful, and funny. He had one character trait that made him stand out from all my other teachers. He was always smiling. He could bring sunshine to a cloudy day. He was very humorous. He would always tell the class lots of funny and comical stories. He also so organized a program that help his students greammer. For example if we used broken english in class we would be charged a monetary fine. I also learned math real well in his class. I was the second student out of 30 to complete my multiplication to 12x12. During our class Christmas party we had accumulated \$60.00 from fines. We had the biggest party at school. He has left a lasting impression on mey. I try to always smile, like he did.
